for each harness in the table
(or only those named with --harness)
its configuration folder
exists in the home folder?
no
yes
skipped: never creates the
configuration of a harness not found
the skills folder already has an entry
named cooperatio-teamwork?
no
yes
create the skills folder if missing;
link to the skill (or copy with --copy)
a link to this skill, or a
copy carrying the marker?
yes
no
already installed
(a marked copy is refreshed with --copy)
conflict, left untouched;
exit 1 at the end
